SUMMARY

Data Analyst with about 2.5 years of experience turning e-commerce and logistics data into dashboards and decisions. Comfortable owning the full workflow from SQL extraction and data cleaning to visualization and stakeholder presentation. Looking for a Data Analyst role in a product or e-commerce company.

EXPERIENCE

Data Analyst - PT Lintas Niaga Digital, Surabaya

March 2024 - Present

- Built and maintained 12 Power BI dashboards used weekly by the commercial and operations teams.
- Wrote SQL queries on BigQuery to build a daily sales mart (ETL with scheduled queries), cutting manual reporting time by 6 hours per week.
- Automated weekly KPI reports with Python and Pandas, replacing a spreadsheet process.
- Designed and analyzed A/B testing for checkout banners; the winning variant raised conversion by 4%.

Data Analyst Intern - CV Arunika Logistik, Sidoarjo

July 2023 - February 2024

- Cleaned and reconciled shipment data from three warehouses in Excel and Google Sheets.
- Created a Looker Studio report on delivery lead time per courier for the operations manager.
